

**INTERNATIONAL LAW**  
**Professor Farrior**

**Assignment for first class**

**Add the course on TWEN** and click “Course Materials” for the reading assignments for both the first and second classes. The readings for our first class address the following two situations; in our class discussion, we will **examine the international law arguments** made by the parties and the **dispute resolution mechanisms** they used.

1. The war between Chad and Libya over disputed territory;
2. The bombing in New Zealand by France of the Greenpeace vessel, *Rainbow Warrior*; it sank the vessel and killed an individual on board.
